How Free My ID works, in 3 steps.

Free, open source, and it runs on your own computer.

1

Step 1. Tell it who to look for.

A name, and the city and state you live in.

What is the person's name?

First name

Jane

Middle name (if any)

Last name

Testperson

▶ Any other names? (nicknames, maiden name)

Back Next

2

Step 2. It asks the sites to take you down.

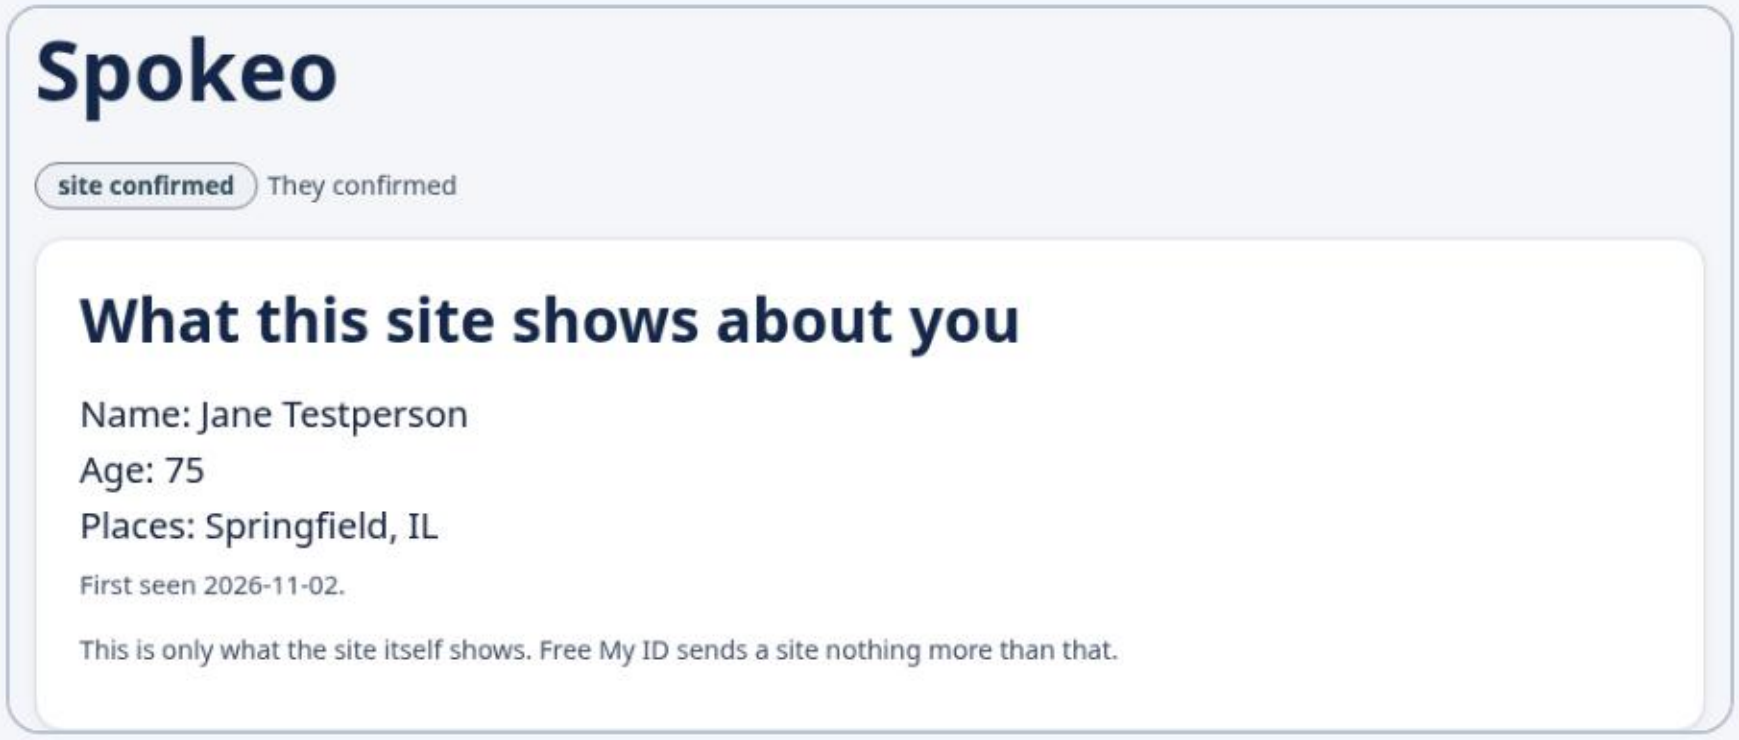

It uses each site's own removal process. If a site needs you to tick "I'm not a robot", it shows you a card and you do it.

3

Step 3. It keeps checking.

You see what is confirmed, what is waiting and what needs you.

Free My ID

No account.
No cloud.

It never asks for your Social Security number, bank or card details. Free and open source. Uninstall anytime.
